INFORMATION GUIDELINES

All military aircraft and parachute team enquiries have to be made via a formal application to the MoD at the end of September each year. Submitted by this Agency on your behalf. The Allocation meeting is in February the following year where a decision will be made and the application confirmed or declined.

THE ANIMAL WELFARE LICENCE SCHEME – most animal/bird displays, irrespective of their size and number of animals, should hold the Animal Welfare Licence as of Government legislation October 2018 to enable them to display. Some will have exemption, but it is suggested that organisers should ask the question.

FALCONRY DISPLAYS – require a roped arena of approx 40m x 40m plus an area of 5m x 5m with dog proof fencing for the all day static display.

PETTING ZONES and SHEEPDOG DISPLAYS – sheep will only appear subject to the DEFRA rulings at that time.

Most Equestrian and vehicle / motorcycle displays will require at least a double roped arena or most often preferred metal barriers to comply with the act's insurance & health and safety requirements.

DISCLAIMER – The Fees quoted are a guide to costs but travelling expenses may apply and in some cases the Congestion and Low Emissions charges may apply within the M25 area. In every case a full and precise quote will be given.

Please Note that some of the items/displays shown, may differ in style, colour and personnel from the actual available at the time of the booking – but quality will be maintained.

ALL Operators will hold Third Party Public Liability Insurance and will have a Risk assessment and certain artists or displays may have CRB paperwork although this document has been deemed no longer a valid statement.

BOB HOGG'S NEW SHEEPDOG SHOW

Bob Hogg has travelled around the country with his sheepdog display enjoying taking the world of the shepherd and his dog into countryside arena's, showing the skills these amazing animals have, whilst offering great entertainment. Bob has had many television appearances including Countryfile, House of Tiny Tearaways working with Dr Tanya Byron along with many others. Bob has also been invited on many occasions to present his show to the Saudi Royal Family.

However over the last couple of years Bob feels sheepdog displays have almost become tribute acts to the originals with a copy and paste approach all offering and looking the same. So for 2020 he will be aiming to give a completely new feel to the display still based on the traditional skills adding the entertainment factor but there will be a new vibrant display previously unseen. Something new for the public but retaining the elements they love.

He can use sheep (sheep will require a secure arena, not ropes) geese and ducks depending on the requirements of the individual shows and child participation will be included. Lots of fun being a priority!! There will be special guest appearances with other animals to give variety and the element of surprise.

Bob also uses bearded collies in his displays to add a little more individuality to his display and show the different ways they work. This is always very popular with the audiences as they bound into the arena with their long coats flowing looking slightly clumsy until they hear Bob's voice and begin to work with such style and grace.

Not only will he be bringing a new show to the arena but will offer two different displays per day one more traditional and educational whilst the other concentrating on the fun. Both will be accompanied by a humorous and informative commentary.

Animal Welfare Licence W/19/00530/AEXHIB

Paul Hannam is a quad bike stuntman from North Devon with 25 years' experience riding quad bikes & 10 years' experience racing at British Championship level.

The Paul Hannam – Quad Bike Stunt Show includes:

- Precision riding
- Multiple roll stunt quad
- Jumps as big as possible in arena provided (Jumping anything he can get his hands on from cars, vans and tractors with the occasional monster truck jump – all of which are done with no landing ramp)
- Trick riding in all four corners of arena getting up close and personal with the crowds so no one misses out on the action

The search is over for Paul's new team mate

Paul wanted to give someone the same opportunity he was given 6 years ago by The Kangaroo Kid (aka Matt Coulter).

Radford Chugg (25) also from north Devon is Paul's new team mate. He has been given the opportunity to ride alongside Paul for the 2020 season. Radford is no stranger when it comes to quad bikes, as he grew up at Keypitts Farm Off Road Adventure. He has always been a daredevil on anything with wheels, so he is the perfect choice to join the Paul Hannam stunt team.

Between displays the public are encouraged to visit the interactive stand where they can get a closer look at the bikes, meet the riders and get a photo.

For agricultural shows, motor shows, festivals, carnivals etc., Paul Hannam normally performs 2 x 30 minute shows – but show length and contents can be adapted to suit any specific requirements.

Price per day: £2500.00 + Travel Expenses

A fast and furious combination of snowboarding and horsemanship, is soon to appear on Horse and Country and other worldwide networks, displayed by some of the best horse boarders in the world.

With the best horsemen, one in a customised saddle and one on the board, a fast, agile and thinking horse, and an international commentary team, they will take your audience to the edge of their seats, on a white knuckle ride of relentless entertainment featuring galloping horses, board riders and 0.01 second differences.

Available in formats from 15 mins to 60 mins twice a day. The show starts with a short introduction to the display which takes place during the 5 minute set up time. Then, all the horses and board riders do a short carousel giving the audience the chance to pick their favourite team before the racing starts. Once the racing starts we run a race every 1.5 to 2 minutes. Barely giving the crowd time to recover from the spectacular previous race before the next starts.

Voted 'the sixth most extreme adventure sport in the world' by Travel Supermarket

The two commentators keep the crowd up to speed as the leader board changes throughout the show giving the times of each partnership as they cross the line and updating the scoreboard to keep the contestants and audience fully up to date with the split second timings.

Teams race around a twisting, turning course in the fastest time possible while reaching speeds of up to 30mph into the first turn. Each team gets three attempts at the course with only the fastest time counting so the real question is... How fast can they go? Probably faster than you think.

Described as 'the coolest thing you're not doing with your horse' by Horse Network

ITV described horseboarding as 'The ultimate team sport'

The team is made up of three brains that must think as one if they are to win the race – horse, rider and boarder. With finishing margins often less than 0.5 seconds, there is no room for mistakes.

BBC said 'It shows how much force and power there is when you're behind a horse'

Weather – can be performing in almost any weather/arena conditions.

Fenced or crash barriered arena – 100m x 100m preferred but 60m x 80m is acceptable.

THE FALCONRY SCHOOL

THIS IS
GENUINELY
THE
MOST
THRILLING
FALCONRY
DISPLAY
YOU WILL
EVER
SEE

The Falconry school can provide both the ancient and modern. From the glory days of Medieval or Tudor falconry, when hunting with falcons was carried out from horseback, you can see a superb costumed display of mounted falconry with hawks and falcons, with the 'cadger' with his cadge of falcons, as well as pointing dogs, and the whole pageant set to music.

From the cutting edge of falconry, The Falconry School is unique in showing falcons flown to radio-controlled prey and drones. This ultra-modern training technique is suited to the largest venues, and involves the falcon chasing the robot bird high into the sky as it twists, turns and dives to evade pursuit.

To see some of the exceptional flights by The Falconry School, go to www.youtube.com and search Falconry TV

The public usually only remember a show because they have seen hawks lost by some demonstrator. With a display by The Falconry School you will remember the actual flight of the falcon or hawk instead!

This is not a mere bird of prey show

The Falconry School seeks to show these fantastic creatures operating in their natural environment – air. MARTIN OBIDANS

Martin was resident pianist in the Royal Yacht Britannia for 5 years, including the time when the yacht was used for the honeymoon of Prince Charles and Princess Diana. He achieved this prestigious role because he was a renowned member of the Band of the Royal Marines. During the Royal honeymoon he became very friendly with Diana. He has also played the piano for many heads of state including Margaret Thatcher, Indira Ghandi, Anwar Sadat, Pierre Trudeau as well as all the other commonwealth heads of state. He has performed all over the world and in every state capital in the USA.

Martin will take you down memory lane as you tap your feet and sing along with him. His musical knowledge is vast and his quiz is legend as he plays songs and has you guessing the titles that you remember but can't quite name!

Indoors or outdoors Martin can perform as background music at functions, weddings, parties & corporate events or, he has his own covered stage in a gazebo with organ, piano and PA. His show is fully self-contained and he can perform on grass or hard standing.

He travels with all his own equipment including a small generator. He prefers it if the show can provide a couple of dozen chairs for people to sit, sing along and listen.

BIG BUBBLE MAN

FASCINATING TO WATCH AND IT EVEN TAKES THE ADULTS BACK TO THEIR CHILDHOOD

On a windy day, the quantity of bubbles has to be seen to be believed! All day long, it fills a huge area with a swirling bubble-blizzard that continues hundreds of metres downwind.

OUTDOOR EVENTS: In a position upwind of the area you wish to fill with bubbles (and crowds of lively children!) I will stake out a 4-metres diameter performance space with bright-coloured bunting. Included is the Bubble Mill and tables with equipment for children to make their own bubbles. Self contained with powerful battery-powered sound system.

Fees: Bubble Man from £300 + Travel
Science Man from £500 + Travel

THE AMAZING BUBBLE MILL: the unique, wind-powered Bubble Mill is one of my proudest inventions. Tripod-mounted two metres above the ground, even the gentlest breeze is enough to generate a constant stream of crowd-attracting bubbles. In sunshine, the spinning CD wind-vanes flash in dazzling prismatic colours as they drive the mechanism.

SCIENCE SHOWS FOR SCHOOLS, CHILDREN'S EVENTS AND FESTIVALS: Science shows are extremely popular. They can combine wild excitement with deep thinking, long-lasting motivation to learn and life-changing inspiration. I have taken these shows all over Europe and beyond and have filled auditoriums and presented for TV Shows.
